## DETAILED ACTION

### Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, 14, 15, 18-34, 37-41, and 43, drawn to an artificially produced peptide neutralizing IL-18, a composition thereof, a DNA encoding the peptide, and a method of producing the peptide, classified in class 435, subclass 69.1.
- II. Claims 12, 13, 16, 17, 35 and 36, drawn to a method to treat a living body with the peptide, classified in class 424, subclass 133.1.
- III. Claims 42 and 44, drawn to a method of neutralizing or inhibiting IL-18 with the peptide, classified in class 435, subclass 7.1.

The inventions are distinct, each from the other because:

Invention I and Inventions II and III are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product as claimed may be used in assays for detection of IL-18, or for purification of IL-18.

Inventions II and III are drawn to independent methods, wherein each of the methods has different process steps, different subjects, different starting and ending points, and is for a different purpose, such that they require separate searches.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or recognized divergent subject matters, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1646

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
